DOUG GOMEZ

New York's own Doug Gomez started his musical career as a DJ, honing his skills with the explosions of Hip Hop, House Music, and Dancehall genres dominating the NYC club scene at the time.

As a true New Yorker of Colombian roots, his love for drums and sophisticated melodies led him to embrace the path from DJing to business and ultimately into production. He worked for the German power house ZYX Music & Waako Records as A&R / Promotions Director and label manager/ Vice President.

Doug's desire to embrace his love through production for what he affectionately calls "That New York Sound", a mix of organic, soulful music, combined with Afro-Latin rhythms, is evident all his productions. It led to an onslaught of releases and remixes on such notable labels including Universal Music, Orianna/Sony Music, MoBlack, Nervous Records, Quantize Recordings, King Street Sounds, Z Records and more. Doug has remixed such notable artists as Kerri Chandler, Dennis Ferrer, Blaze and more.

2017 saw the start of his own record label, Merecumbe Recordings, as an outlet not just for his own music but, for current hot and upcoming producers.

2022, Doug was voted the #12 Top Artist on Traxsource.com

Doug Gomez has traveled the world spreading the joy of House music, DJing in Amsterdam, New York, Miami, Costa Rica, Mexico, and many more.
